

# Mandatory Commercial Organics Recycling Compliance Survey Form/Exemption Form

California law (Assembly Bill 1826) requires businesses generating four cubic yards or more of total solid waste each week and multi-family dwellings of five or more units must recycle organic waste. Organic waste is defined as food waste, green waste, landscape and pruning waste, nonhazardous wood waste, and food-soiled paper waste that is mixed in with food waste. This form is to be used by businesses/multi-family customers reviewing their current service and potentially requesting new organics service or a service exemption from the organics recycling services offered by the City's waste hauler. Please complete the information requested below on your current processing of organics materials.
