

# City of Carpinteria Draft Maps

JANUARY 24, 2021

# Agenda

What we will cover

- California Voting Rights Act (CVRA)
- Traditional Redistricting Principles
- Public Submissions
- Community of Interest Testimony
- Current Lines
- Draft Maps
- Next Steps

# What is Districting?

## Definition

Districting is the initial process of creating election district boundaries.

These boundaries do not determine:

- How the city decides to govern. The city can still work to achieve goals that benefit the city as a whole rather than the interests of any single district.
- How services or relationships between the city and the public are managed.

# What is Districting?

## Definition

Districting is the initial process of creating election district boundaries.

These boundaries do determine:

- Eligibility to run for office – must live within boundaries to qualify for election.
- Who votes in the election – only voters within the zone vote for their board member.

# What is the CVRA?

The California Voting Rights Act takes the principles of the Federal Voting Rights Act and expands it regarding districted elections in two key ways:

While Federal law uses “majority minority” districts as a standard for vulnerability, the CVRA only requires “ability to influence.”

The CVRA requires that plaintiffs get full reimbursement for legal fees associated with any successful challenge.

# What is the CVRA?

The California Voting Rights Act takes the principles of the Federal Voting Rights Act and expands it regarding districted elections in two key ways:

While Federal law uses “majority minority” districts as a standard for vulnerability, the CVRA only requires “ability to influence.”

The CVRA requires that plaintiffs get full reimbursement for legal fees associated with any successful challenge. ***These can be lessened or eliminated if the district follows a strict and prompt process for districting.***

# Traditional Redistricting Principles

## Complying with the Fair Maps Act

The Fair Maps Act passed by the Legislature mandates a set of criteria we must follow when drawing district plans.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

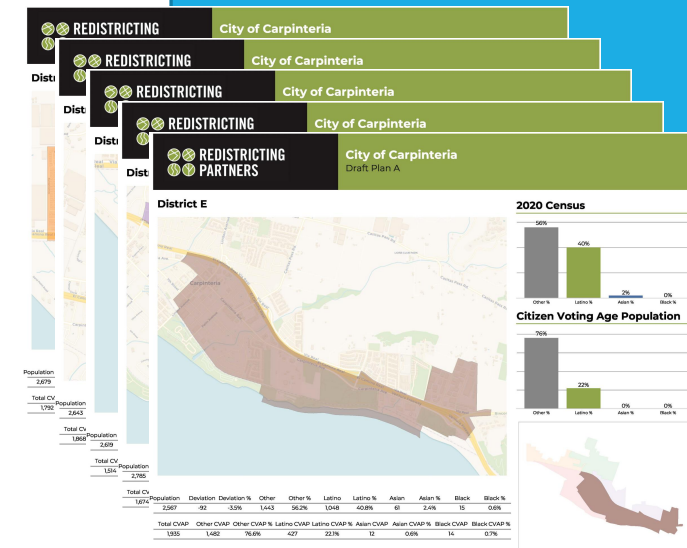

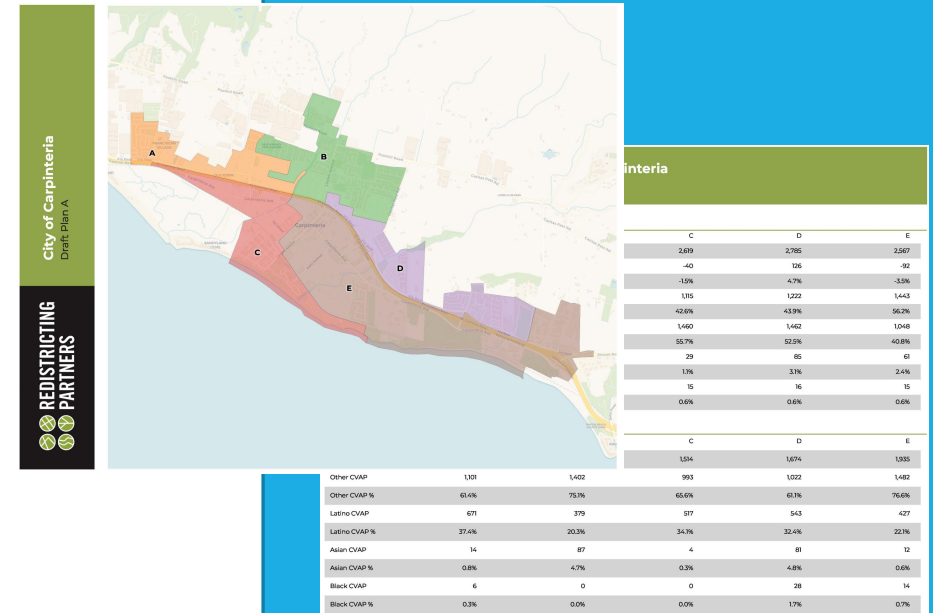

# From COI to Maps

With the Fair Maps Act requiring cities to include the public input in the redistricting process, we move redistricting out into the public, with maps driven by Community of Interest testimony.

**Input from community drives process** with multiple ways for the public to engage.

**Rules for process** emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.

**Releasing maps for feedback** – today we will see plans to spark more public engagement.

# Public Submissions

The City of Carpinteria City Council obtained public map submissions

- Use of the online mapping tool DistrictR to solicit input.
- Hosted 3 Community Workshops + additional community presentations
- Online training of DistrictR at each Community Workshop.
- 45 full plans, 3 partial plans and 6 Community of Interest maps

# Public Submissions

We have converted all full and partial plans, received by January 18<sup>th</sup>, to our “Atlas” format which includes:

- *Cover page with full districting plan overview.*
- Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each district (numbered 1-6 for a complete plan)
- Individual district maps with street-details and data tables and charts.

# Public Submissions

We have converted all full and partial plans, received by January 18<sup>th</sup>, to our “Atlas” format which includes:

- Cover page with full districting plan overview.
- *Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each (numbered 1-6 for a complete plan) district*
- Individual district maps with street-details and data tables and charts.

# Public Submissions

We have converted all full and partial plans, received by January 18<sup>th</sup>, to our “Atlas” format which includes:

- Cover page with full districting plan overview.
- Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each district (numbered 1-6 for a complete plan)
- *Individual district maps with street-details and data tables and charts.*

# Public Submissions

The Community of Interest maps drawn by the public and received by January 18<sup>th</sup>, were also converted to Atlas format.

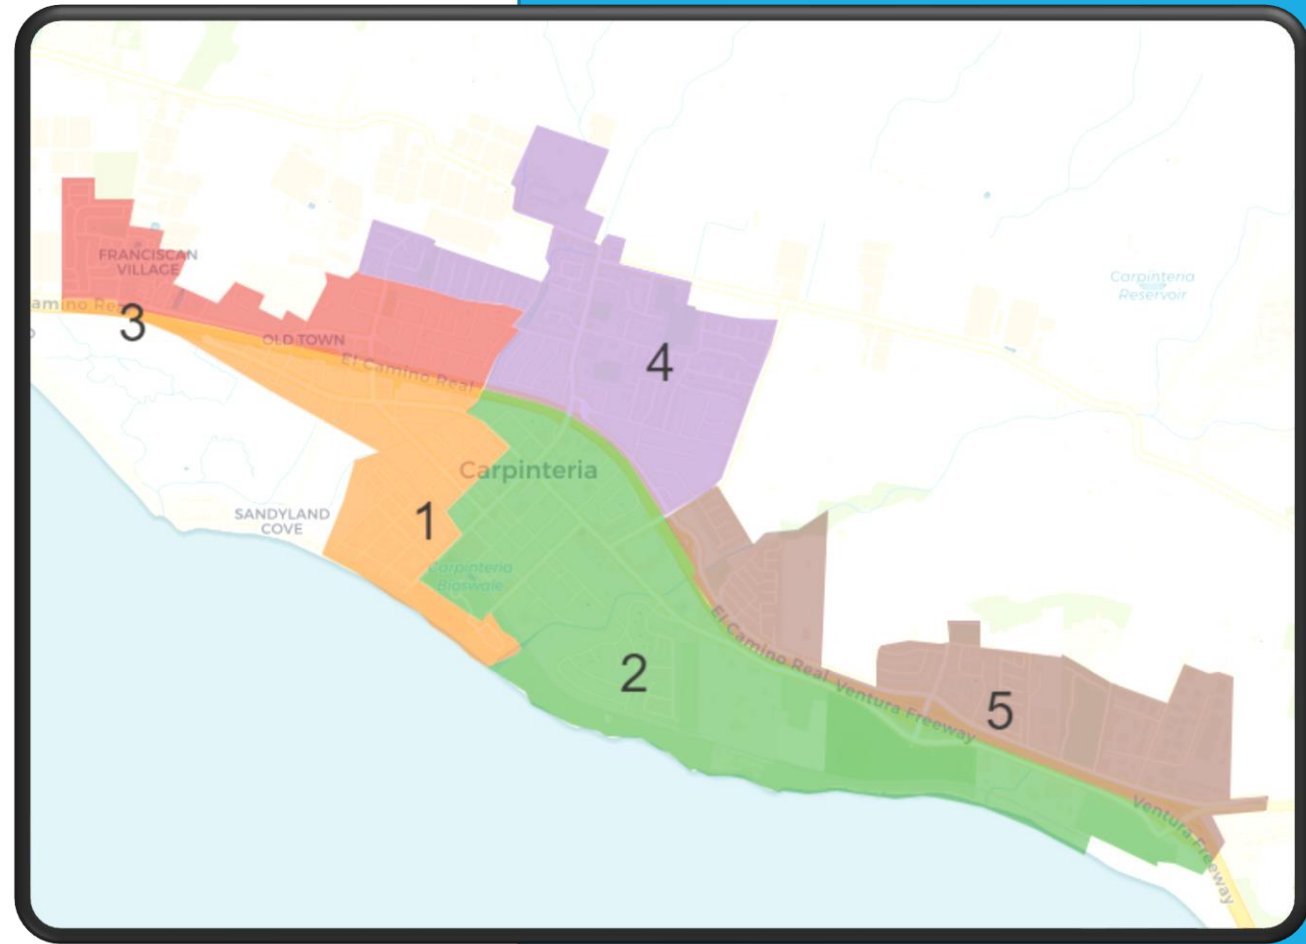

- Community of Interest submissions provided to commission with descriptions provided by the public.
- All COI submissions are available on DistrictR site with points of interest and descriptions.
- Communities of Interest used to develop draft plans based on commission direction.

# Public Submissions

In addition to PDF maps of all submissions, there are also web maps provided.

These allow the user to zoom in to street level for a closer inspection.

# Public Submissions

In addition to PDF maps of all submissions, there are also web maps provided.

These allow the user to zoom in to street level for a closer inspection of where district lines are placed.

# Public Map Plan Submissions

## Placing Public Plans into Mapping Schools

To date, there have been 45 full public plans, 3 partial plans, 6 COI submissions through DistrictR and 99 placemats. These plans can be categorized as follows:

- Non compliant: single district, more than 5 districts, noncontiguous
- Use 101 as split
- Keep downtown corridor together
- Most maps keep coast together
- Northeast boundary at Dump Road
- Southwest boundary split at Linden Ave

# Non Compliant: Single district, more than 5 districts, non contiguous

EMAIL dennybarga@gmail.com

**RECEIVED**  
**DEC 9 2 2011**  
**CITY OF CARPINTERIA**

**THE RULES**

- Create a single city council district or create a full five district plan.
- New districts should have a population of around 2,650
- The largest district should be no more than 500 people greater than the smallest district.

**ABOUT THE BLOCKS**

Each of these blocks is drawn within Carpinteria's existing neighborhoods. The numbers are a rounded number based on the final census data adjusted by the State of California.

**A B C D E**  
DISTRICT 1 DISTRICT 2 DISTRICT 3 DISTRICT 4 DISTRICT 5

Write in the population estimates for each of your drawn districts.  
~2650 is ~2700 Target Population per district.

**D=2,700**  
**E=2,800**  
**C=2,709**  
**A=2,420**  
**B=2,500**

*A includes downtown area which is additional responsibility. Also, most of these districts are in downtown.*

# Use 101 as boundary

Black CVAP %	0.5%

# Draft Plans A, B & C

Council was provided a packet with three consultant created plans based on traditional redistricting criteria, and COI testimony. These maps were posted to the council website for the public prior to Draft Map hearing.

- Districts are letters, not numbers. This is a temporary structure for identifying seats as the final draft plan is required to be numbered based on a formula in the charter.
- Each draft has been created with a less than 10% total deviation.

# Plan A

Plan meets traditional redistricting criteria and also achieves the following:

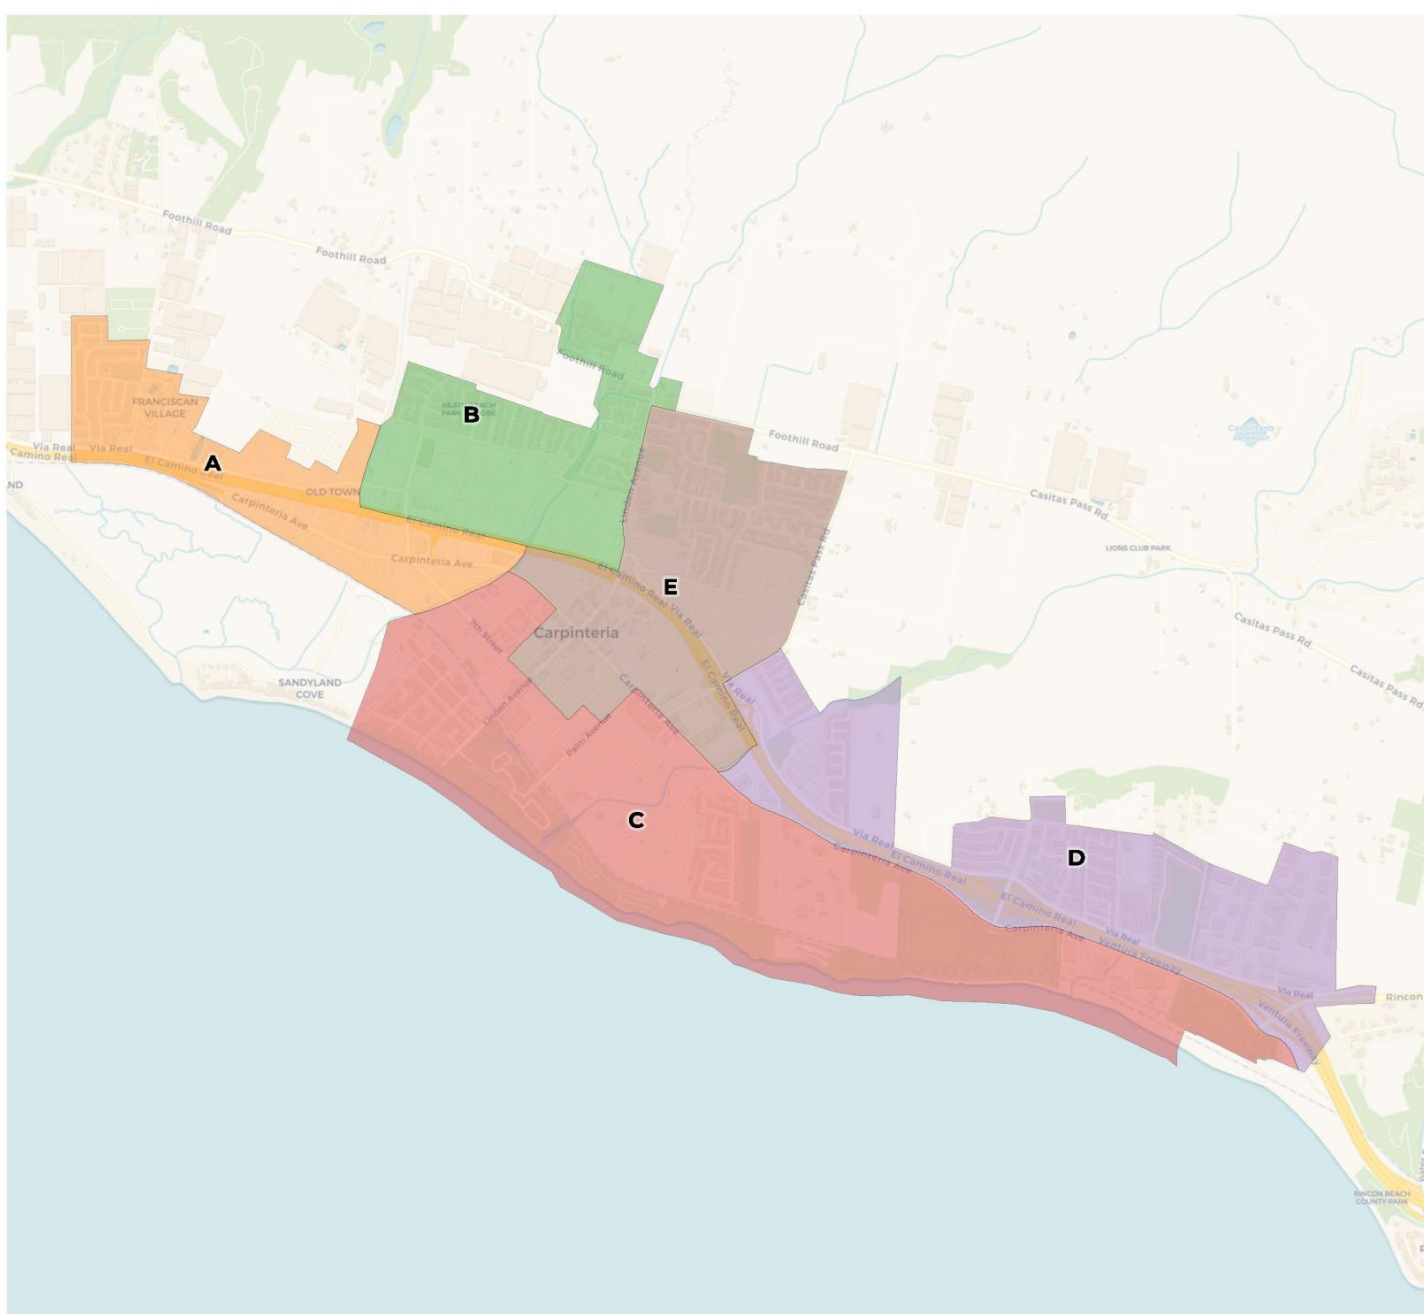

- Deviation of 8.2%
- Based on ID95054 plan
- Uses 101 as boundary

## 2020 Census

	A	B	C	D	E
Population	2,679	2,643	2,619	2,785	2,567

# Plan C

Plan meets traditional redistricting criteria and also achieves the following:

- Deviation of 8.2%
- Based on placemat by Jim Taylor
- Keeps Northeast together
- Keeps Downtown Beach area together

# Amendments to Plans

Changes to plans may need balancing and understanding of tradeoffs. Three types of changes.

- 1) Keeps within deviation and doesn't necessitate other changes.
- 2) Identifying a change and a possible tradeoff with that same ward – a “one to one swap”
- 3) Identify a change and a set of districts that involves multiple districts – a “rotation”

# Amendments to Plans

If there are proposed changes we can look at those individually and provide input on if they can be achieved easily or require more adjustments.

# What's Next

- Official council drafts will be made public in advance of a citywide public draft feedback hearing.
- All council draft plans will go to a final plan selection hearing.
- Final Plan selection hearing will consider only draft plans that have been made public for seven days.
- *Numbering of districts is done at the end of the process*

# Redistricting Process

## Timeline for Upcoming Meetings

- January 24<sup>th</sup> First Public Hearing and Discussion of Draft Maps
- February Second Public Hearing on Draft Maps
- March Final hearing before the City Council for the approval of a final plan with election selection lines
